

Alex Dev

Python Software Engineer | Denver, CO (Remote) | alex.dev@email.com | (555) 019-2834

Professional Summary

Highly motivated and skilled Software Engineer with over 5 years of experience specializing in Python development. Proven track record of designing, building, and deploying scalable web applications, robust RESTful APIs, and efficient data engineering pipelines. Strong experience with Django, FastAPI, PostgreSQL, Docker, and AWS cloud environments. Passionate about writing clean, maintainable code and solving complex technical challenges.

Technical Skills

Languages: Python, SQL, JavaScript, HTML5, CSS3

Frameworks & Libraries: Django, Django REST Framework, FastAPI, Flask, Pandas, NumPy

Databases: PostgreSQL, MySQL, SQLite, Redis

DevOps & Tools: Docker, AWS (S3, EC2, ECS, Lambda), Git, GitHub Actions, Linux

Professional Experience

Senior Python Engineer | TechCorp Solutions (Remote) | 2023 - Present

- Architected and implemented 15+ microservices using Python, FastAPI, and PostgreSQL, improving service reliability by 25%.
- Optimized complex database queries and added Redis caching layer, reducing overall API response latency by 35%.
- Containerized development and production environments using Docker, streamlining deployments to AWS ECS.
- Mentored junior developers and instituted code review standards to ensure code quality and maintainability.

Software Engineer | StartupInc (Denver, CO) | 2021 - 2023

- Developed and maintained key features for a high-traffic Django SaaS web application.
- Designed and integrated secure third-party REST APIs for payment processing and analytics.
- Set up automated CI/CD workflows using GitHub Actions, cutting manual deployment errors by 50%.
- Managed database migrations and schema design for PostgreSQL databases.

Education

Bachelor of Science in Computer Science | University of Colorado | 2017 - 2021
